

2. Hospital & QI Team Overview

Elisa Feldmann RNC- Nurse Manager

Shari Grandidier RNC- Staff Nurse

A.E. Fisher MD- Medical Director

4. MNO-OB Progress

Screening Tools

Within the last month have put in place an Opioid Risk screening and Maternal 5pS for staff documentation

MNO-OB Folders

In place to be given to mothers with + screening.

5. IPLARC/IPAC or MNO Overflow

(Did not participate in IPAC since we have a post discharge visit plan in place. All mother/baby is seen either in the hospital setting or the MD office 2 days after discharge.

3. MNO-OB Data

Screening

Majority of screenings in both Prenatal and L&D were non-validated.

1 MD did validated screening majority of time on prenatal.

MAT

Recovery Program/Services

We recently hired a Social worker within Case Management that has background with these patient types.

Narcan

Physicians worry about cost issue

Education Campaign

Presented MNO plan at MD meeting. Most felt they did not have time for additional questioning other than the 1 question about illicit drug usage.

Monthly Review of all OUD Cases

100% if DCFS involved.

6. PVB

Team Members are the same QI team.

Nulliparous CS rate-	2018	(17%)
	2019	(19%)

30 days

Plan to review ACOG C-Section Guidelines

60days

Present to OB Committee mtg. for MD review and discussion.

OB Storyboard

Use this space for overflow and additional information your team would like to share.

A large, empty white rectangular area intended for sharing overflow and additional information. It is bounded by a thin blue line on the top, left, and right sides, and a thin blue line on the bottom side. The interior is completely blank white space.
