### 3. MNO-OB Data

Screening- 5 P's universal screening fully implemented in Outpatient and Inpatient Setting

MAT- Resource list given to outpatient clinics and inpatient unit

Recovery Program/Services  
None available close by. Resource list given to providers

Narcan- Not currently prescribing to patients.

### 4. MNO-OB Progress

#### Screening Tools

We are currently performing the 5 P's screening on every OB intake, every OB outpatient, and every OB inpatient. Urine drug screens and Cord screens are collected on every positive 5 P's screening

#### MNO-OB Folders

All patients are provided information on opioid use on the intake appointment at the prenatal office and in their admission folders in the inpatient unit.

#### Education Campaign

All staff was educated using Healthstream LMS using the grand rounds slide deck. All new staff are assigned the assignment on hire.

#### Monthly Review of all OUD Cases

Director of OB does the monthly review of cases.

### 5. IPLARC/IPAC or MNO Overflow

IPAC: Provider buy in was difficult to ascertain. We were able to use 2 of the 3 patient education handouts and are currently providing those to 100% of our patients who deliver. Providers are doing two week follow up phone calls but not seeing patients face to face at 2 weeks unless they have a cesarean section or hypertension.
