### 3. MNO-OB Data

### 4. MNO-OB Progress

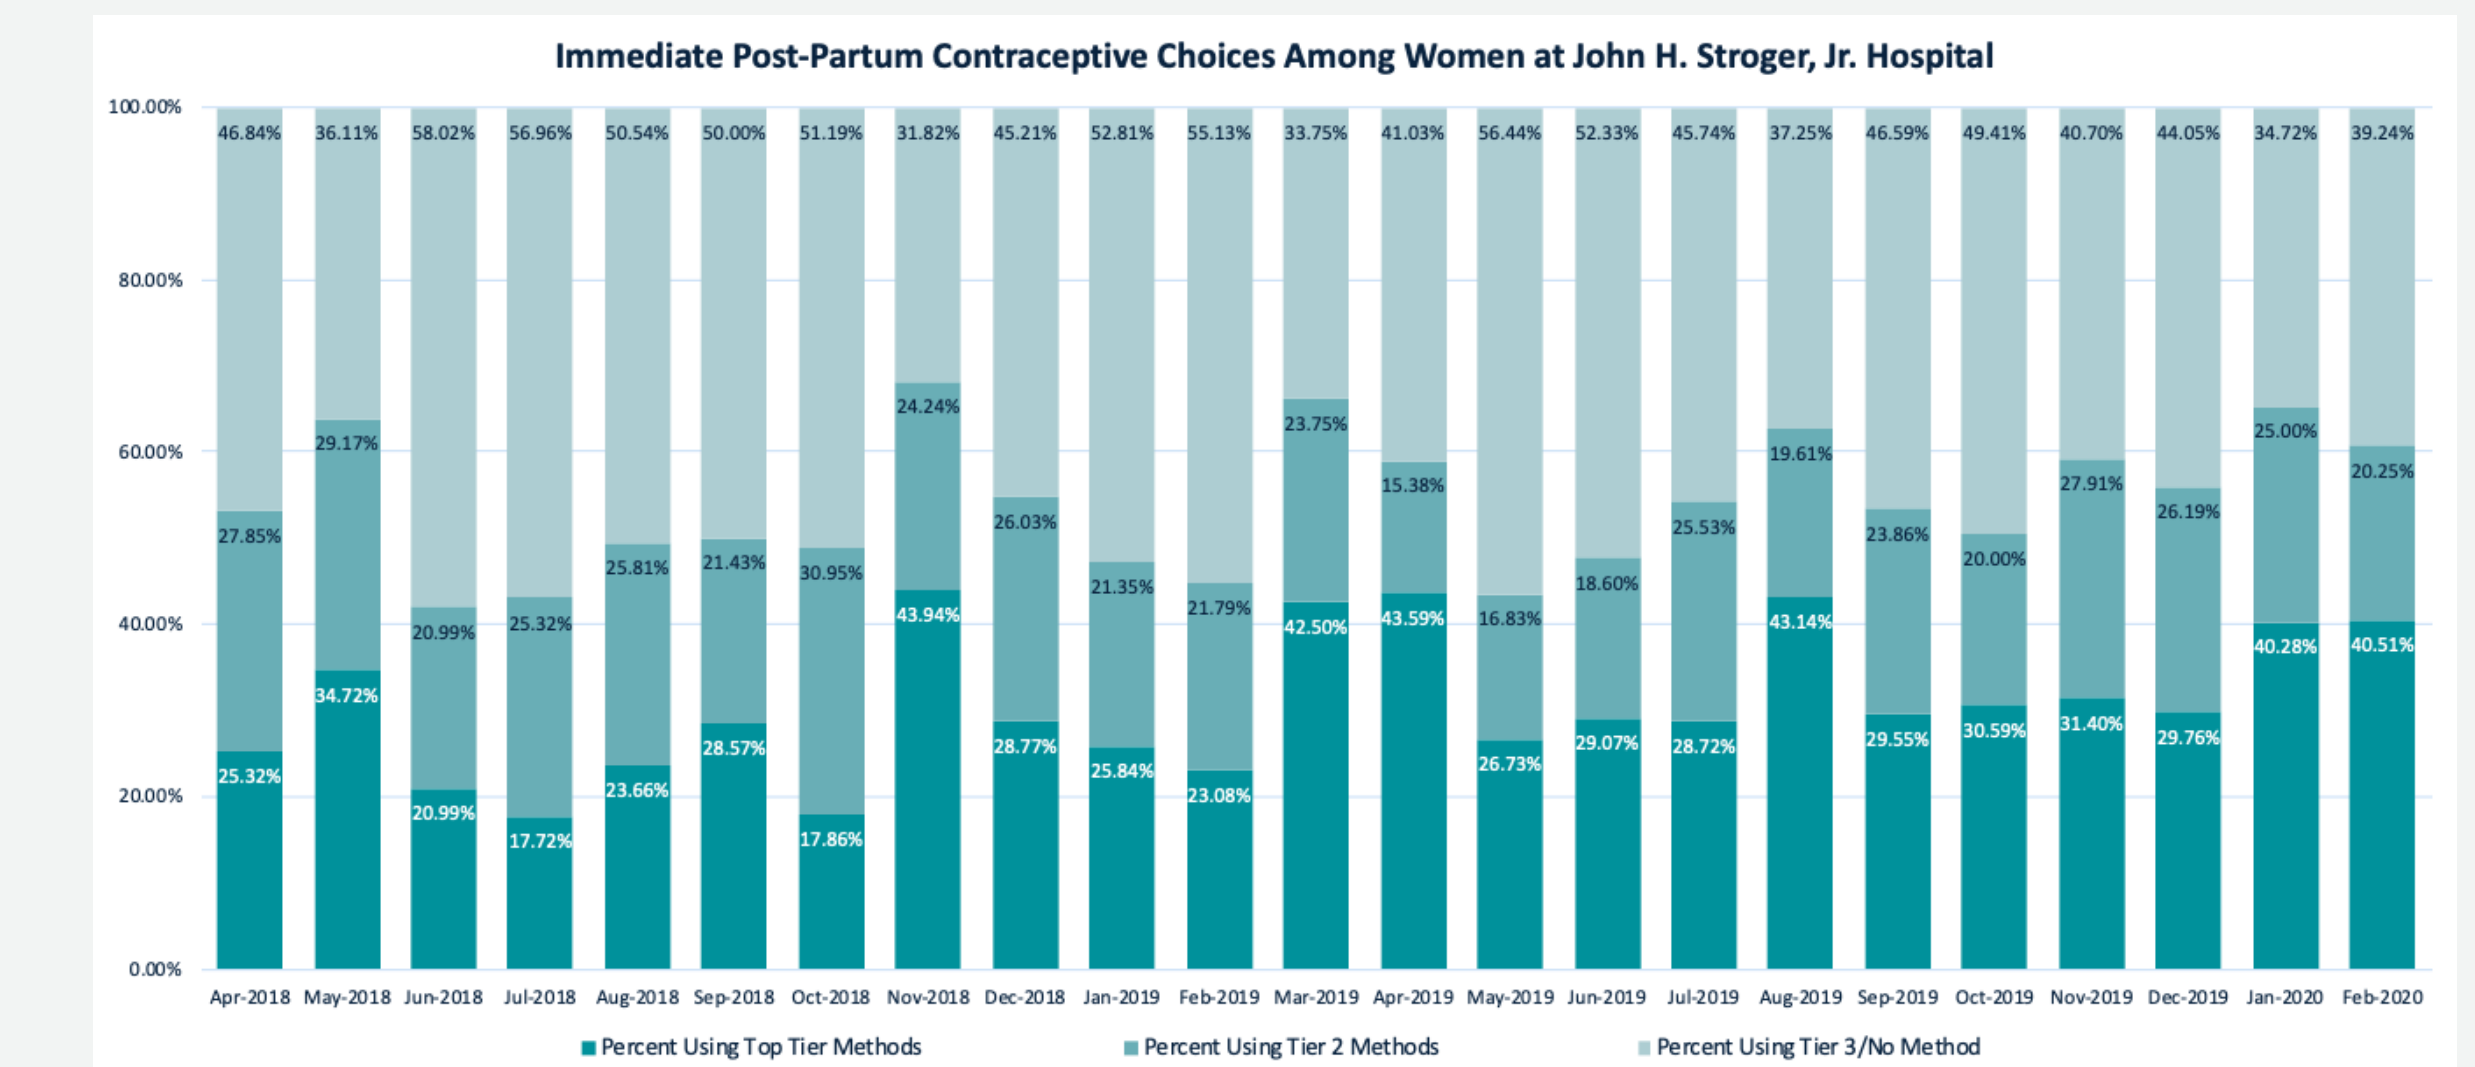

#### Antenatal -

- Identification of the mother before and at the time of delivery by using The 5 P's
- If positive - NAS team (multidisciplinary) will be informed
- Prenatal consultation by NICU team, Lactation consult and Social Work consult

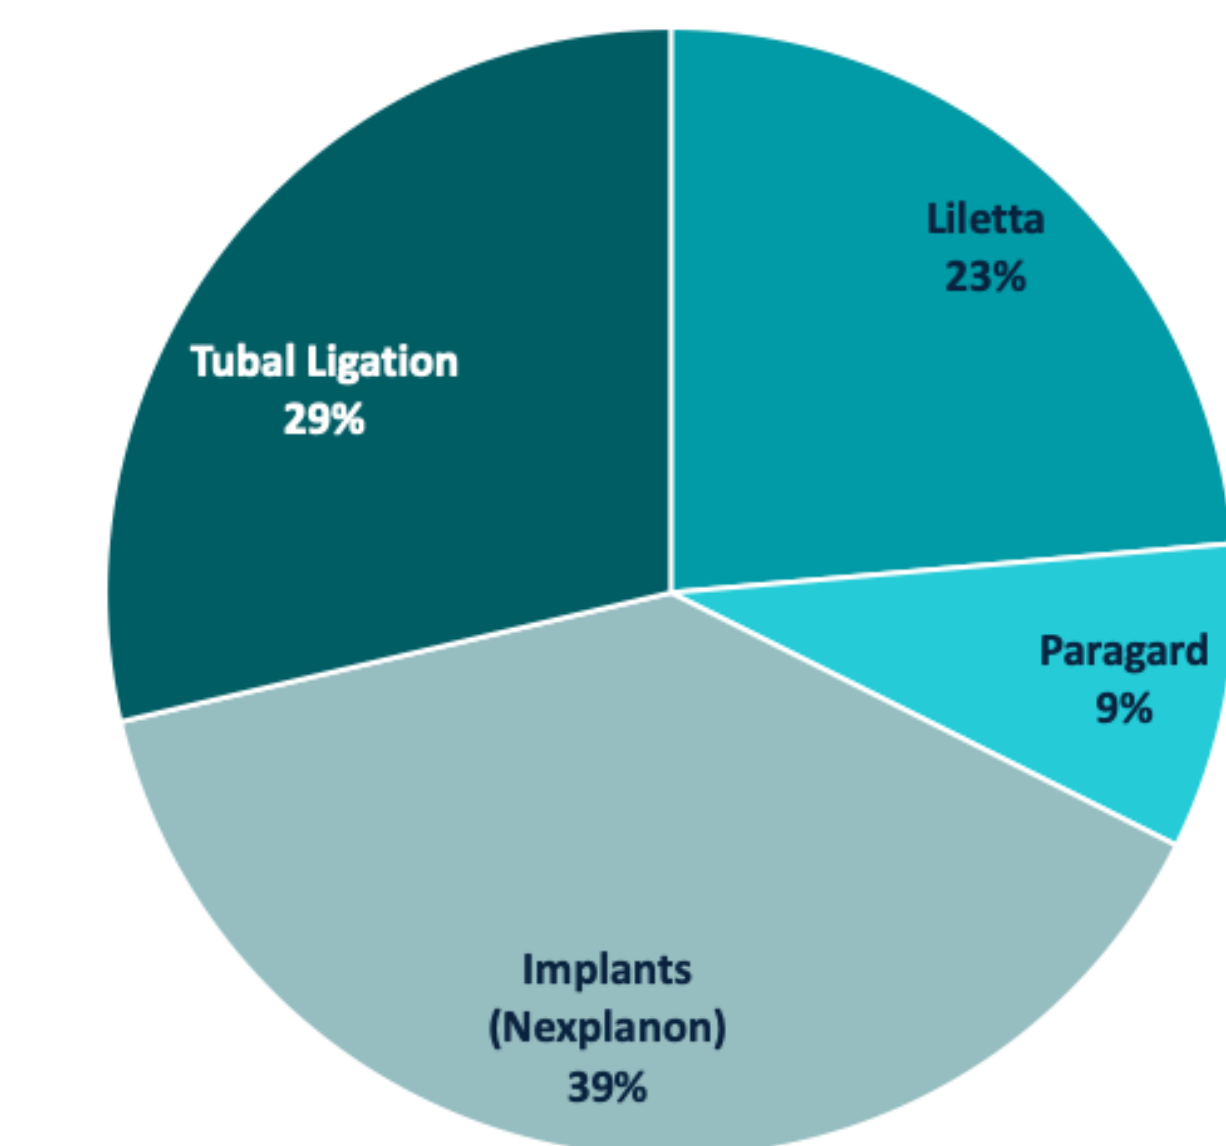

- Coach and Partner with the parent on how to care for the infant
- Provide education materials
- Educate mothers and identify barriers
  - Mom's need to feel welcomed
  - Empower the mother and family
  - Reduce guilt by being the solution

We have also started a MAT registry to make sure our patients are getting follow-up and support after delivery and discharge

### 5. IPLARC/IPAC or MNO Overflow

Immediate Post Partum Top Tier Methods of Contraception Choices Among New Mothers at John H. Stroger, Jr. Hospital

### 6. PVB
