

# TWO-GENERATION CLINIC

High quality, comprehensive care for women, children and families.

**This new clinic provides comprehensive care, with an emphasis on postpartum care for women, and the growth and development of children.**

The UI Health Two-Generation Clinic is an innovative care destination where women, children and families of all ages can simultaneously receive comprehensive care from a team of healthcare professionals.

## Benefits of Care at the Two-Generation Clinic

- Healthcare appointments that are efficient for families because mothers and children are scheduled to be seen together.
- A comprehensive approach to care with a focus on the health, behavioral health, and the social needs of every family.
- Assistance with connecting families to needed resources such as transportation, housing, and other social and legal services.
- Care coordination and management, including assistance with navigating the healthcare system and accessing specialty care services.
- Specialized care after pregnancy, including management of chronic disease.
- A focus on fostering children's health and development.

## Our Team

Our clinic features a diverse team of healthcare professionals who are committed experts in caring for women and children. This team includes:

- Board-certified internal medicine and pediatric physicians
- Board-certified adult and pediatric psychiatrists
- Advanced Practice Nurse Care Manager
- Social Worker (bilingual in English and Spanish)
- Health Coach
- Certified Lactation Specialist
