Strategies to Cross the Finish Line - Round Robin Part 2: Screening, MNO Folders, OB Education, Missed Opp. Review

March 23, 2020
12:30 – 1:30pm
Overview

• COVID 19 debrief
• Welcome/introductions
• Face-to-Face Meeting
• MNO-OB Strategies for Success
• Round Robin
Covid-19

During this time our goal at ILPQC is to continue to be a source of information and support for our hospital teams and team members. Together we will determine how to move forward as we know across Illinois priorities focus on concern for families, friends, colleagues, and patients.
In Memory

Judy Wilson-Griffin, MSN, RNC-OB, C-EFM
SSM Health St. Mary’s Hospital

Nursing crosses all barriers and all disciplines, Wilson-Griffin said, and seeing people in good times and bad times has taught her a lot. She tells her students that being clinically proficient won’t get them far by itself. “Anybody can be good technically,” she said “but without compassion, there is always going to be something missing.”

COVID-19 Information for Clinicians Caring for Children and Pregnant Women

• We are committed to supporting each of you on the front lines of this work and will continue to notify you of any materials and resources that we are made aware of. We encourage you to check out the following and share with colleagues:
  https://ilpqc.org/covid-19-information/
  – CDC’s Guidance for Inpatient Obstetric Healthcare Settings
  – CDC’s COCA call on COVID-19 Update: Information for Clinicians Caring for Children and Pregnant Women
  – ACOG’s Practice Advisory for COVID-19
  – ACOG’s Joint Statement for Elective Surgeries
  – GOLD Learning’s webinar on Caring for Our Community During COVID-19
  – KFF’s recently release COVID-19: Special Considerations for Pregnant and Breastfeeding Women
  – The 4th Trimester Project’s patient education website on COVID-19 For New Moms

• Webinars:
  • CMQCC: Preparing your maternal and neonatal units to respond to COVID-19
  • SMFM COVID-19 in Pregnancy: Preparing your Obstetrical Units
Face to Face planning for virtual meeting options

- Given these unprecedented times we are facing with the Covid-19 virus, we are working on plans for **Face to Face to be a virtual meeting**.
- Please register for the meeting and we will update the collaborative as soon as back up plans are in place. There is no fee to participate. If you registered prior to the switch to a virtual meeting, you should have received a refund. Contact us at info@ilpqc.org with questions.
You’re Invited!

2020 OB & Neonatal Face-to-Face Meetings

Nurses, Providers, & Staff
join us for an interactive day of collaborative learning for current & upcoming ILPQC initiatives!

OB Teams: May 20, 2020
Check-in: 8:00a-9:00a
Meeting: 9:00a-3:30p
Mothers & Newborns affected by Opioids - OB (MNO-OB)
Immediate Postpartum LARC (IPLARC)
Improving Postpartum Access to Care (IPAC)
Promoting Vaginal Birth (PVB)

Neonatal Teams: May 21, 2020
Check-in: 8:00a-9:00a
Meeting: 9:00a-3:30p
Mothers & Newborns affected by Opioids - Neonatal (MNO-Neonatal)
Babies Antibiotic Stewardship Improvement Collaborative (BASIC)

Register now! https://ilpqc.eventbrite.com

This activity has been submitted to the Ohio Nurses Association for approval to award contact hours. The Ohio Nurses Association is accredited as an approver of continuing nursing education by the American Nurses Credentialing Center’s Commission on Accreditation. (OBN-001-91)

NEW VIRTUAL MEETING

Illinois Perinatal Quality Collaborative
633 N. St. Clair, 20th Floor
Chicago, IL 60611
F2F Storyboard Session

- All teams will bring a storyboard to the Face to Face session
- For MNO-OB, share your progress toward crossing the finish line including implementation of the 4 key strategies
- For IPLARC/IPAC teams, share your Go Live success and sustainability plans
- For PVB teams, share your PVB QI Team, 30/60/90 day plans for getting started
- See the diagram for examples of how to lay out your storyboard

We are working toward moving this element of our meeting to the virtual platform.
## QI Excellence Awards

**ILPQC Mothers and Newborns Affected by Opioids-OB**

<table>
<thead>
<tr>
<th>QI Champion</th>
<th>QI Leader: Culture &amp; Systems Change</th>
<th>QI Leader: Systems Change</th>
</tr>
</thead>
<tbody>
<tr>
<td>✓ <em>All Data Submitted</em> + ✓ 6 Structure Measures In Place + ✓ <strong>4-6 Process Measure goals met</strong></td>
<td>✓ All Data Submitted + ✓ 6 Structure Measures In Place + ✓ <strong>1-3 Process Measure goals met</strong></td>
<td>✓ All Data Submitted + ✓ 6 Structure Measures In Place + ✓ <em>(also route for teams with no patients)</em></td>
</tr>
</tbody>
</table>

**Determined by Cumulative Data for Quarter 1 (January - March) of 2020**

*All Data Submitted for Baseline (Oct - Dec 2017) and July 2018 through March 2020*

*MNO-OB Monthly Patient Data, Monthly OB Structure Measures, Monthly Sample of Documentation of Screening*

---

**Deadline Extended: DATA DUE MONDAY, May 4th by MIDNIGHT**
Face to Face MNO-OB QI Awards

• **ALL Patient, Sample of Screening, & Structure Measures Submitted:**
  - Baseline and July 2018 - March 2020 data
  *note: if any monthly data is missing, including submitting that no patients were discharged that month, a team won’t qualify for an award*

• **Structure Measures ‘IN PLACE’/ Green by March 2020:**
  - Screening (L&D)
  - Screening (Prenatal)
  - Mapping
  - SBIRT Algorithm
  - Checklist
  - Patient Education

  Can get to green by implementing MNO Folders

  Goal is to provide **every** patient with OUD optimal care

• **Process & Outcome Measures Achieved by March 2020:**
  - MAT >70% | BH Counseling >70% | Narcan >70% | Hep C >70% | Patient Education >80% | Screening (L&D) >80%

**Deadline extended!**

**DATA DUE MONDAY, May 4th by MIDNIGHT**
MNO-OB KEY STRATEGIES FOR SUCCESS
REGISTER NOW for on-line ASAM Treatment of OUD Waiver Trainings

• Wednesday, **April 8** | 8am – 12:30pm | (Register Here)- Online Live Webinar; Hosted by Memorial Hospital Carbondale (open to all of ILPQC)

• Friday, **May 1**  | 9am – 1:30pm | (Registration Coming)- Online Live Webinar; Hosted by Javon Bea Hospital (open to all of ILPQC)

• Saturday, **May 2**| 8am – 12:30pm | St. Louis University (Register Here)- St. Louis, IL
100% of teams have a validated screening tool in place on L&D

81% of teams have a SBIRT protocol/algorithm in place on L&D

75% of teams have a validated screening tool in place prenatally

93% of teams have mapped community resources for women with OUD

70% of teams have implemented an OUD Clinical Care Checklist on L&D

83% of teams have implemented standardized patient education on L&D
Documentation of Screening for SUD/OUD with Validated Tool

Random sample of 10 deliveries per month reviewed for documentation of SUD/OUD screening
N = 14,970 to date

L&D

Red = No screening
Yellow = Screened single question
Green = Screened with validated SUD/OUD screening tool

BENCHMARK = ≥ 80%
MNO-OB teams have reported data on over 1,716 pregnant/postpartum women with Opioid Use Disorder, averaging 76 women per month.
Women with OUD on MAT by Delivery Discharge

BENCHMARK = ≥ 70%
Women with OUD at Delivery Connected to Behavioral Health Counseling/Recovery Services

BENCHMARK = ≥ 70%
Maternal OUD/NAS Education & Documentation

BENCHMARK = ≥ 80%
OUD Clinical Care Checklist
Included in Chart (Prenatally or by Delivery Admission)

BENCHMARK = $\geq 70\%$
Narcan Counseling & Documentation

BENCHMARK = ≥ 70%
Hepatitis C Screening & Documentation

BENCHMARK = ≥ 70%
OB Provider and Nursing Education

BENCHMARK = ≥ 70%

Key Strategies for MNO Success - What every hospital needs to achieve aims

- Validated Screening Tool
  - Implementation of universal validated self-reported screening for OUD for all pregnant patients prenatally and on Labor & Delivery

- MNO-OB Folders
  - Create MNO folders: (1) OUD Clinical Algorithm and OUD Clinical Care Checklist, (2) Narcan quick start & Flyer, (3) Patient Education Material. Store L&D/prenatal clinics. Nurse pull for every OUD patient and engage OB provider with key tools and provide materials to patient.

- OB Provider Education Campaign
  - Hang posters, magnets and laminated OUD Algorithm / Checklist on L&D/postpartum, hand out flyers, and provide online training, Grand Rounds and MNO talks at OB provider meetings

- Missed Opportunity Review/Debrief
  - Implementation of a Missed Opportunity Review and Debrief with the Clinical team for every patient diagnosed with OUD.
MNO-OB QI Support Strategies

- ILPQC reached out to MNO-OB teams to provide support to achieve the initiative AIMs including 1:1 QI Support, QI Topic Calls, Regional Strategies for Success, and Letters to share with OB Administration.

- ILPQC will be following up with teams to help support MNO-OB success and engage hospital OB Administration to support the hard work the team’s doing.
Implement MNO-OB Folders in 4 Easy Steps

1. **Print** all materials with one click [here](#)!

2. **Print** 5-10 to keep in L&D

3. **Orient & Educate** Providers & Nurses to Folder Contents and Protocol to use for all screen+ patients

4. **Provide** 2-5 folders for each outpatient site/clinic to utilize

If patient screens + for OUD, ask nurse to pull MNO folder for easy access to materials for provider, nurse and patient
Implement OB Provider / Nursing Education Campaign in 3 Easy Steps

1. **Hang** Provider Education Posters / Flyers and OUD/SBIRT Clinical Algorithm on Units

2. **Require** and **implement** eModules for Providers, Nurses, and Staff. Recommended options:
   - **Words Matter: How Language Choice Can Reduce Stigma** (30 Min)
   - ILPQC MNO-OB Simulation Guide
   - Stay tuned for a 30 min ILPQC comprehensive eModule with key strategies and finishing strong for sustainability
   - **Request** a Grand Rounds or OB Provider Meeting
Monthly Case Review of All OUD Cases in 4 Easy Steps

1. **Identify** all OUD cases at least monthly

2. QI Team **reviews medical record** to identify missed opportunities for optimal care using the form

3. Nurse champion **provides feedback** to patient’s L&D and postpartum nursing team as indicated

4. Provider champion **provides feedback** to prenatal and L&D admission provider as indicated
MNO-OB DATA REVIEW
ROUND ROBIN: SHARING KEY STRATEGIES FOR SUCCESS
Please share your MNO-OB Team’s status…

✓ How is your QI team and QI projects in this new climate?
✓ How has your team implemented a universal validated screening tool prenatally and on LD?
✓ What system(s) have you put into place to ensure success for your MNO Folders?
✓ OB Provider / Nursing Education Campaign – what you’ve specifically done so far and what you’re planning to do in the next month
✓ Monthly case reviews of all OUD cases & providing feedback to the clinical team (Missed Opportunities)

**This month:**

Other opportunities for collaborative learning: Regional strategies discussion at your regional perinatal network meetings to discuss key strategies implementation

- 7 regional strategies meetings completed, 2 more scheduled
Moving forward…

- Take care of yourselves, your families, your colleagues and your patients, understanding QI work is important but may not be your team’s first priority during this time.
- Review your MNO-OB data compared to the collaborative with your QI Team.
- Review the key strategies for success with your QI Team and share strategies that you learned on this call from other hospitals.
- Discuss what is needed for your team to cross the finish line with MNO and receive MNO-OB QI Award.
- Create a 10-20-30 day Crossing the Finish Line Plan to help your team plan and implement next steps.
