

## 2. Hospital & QI Team Overview

**Michelle Djonlich, RN**  
Neo MNO Team Lead

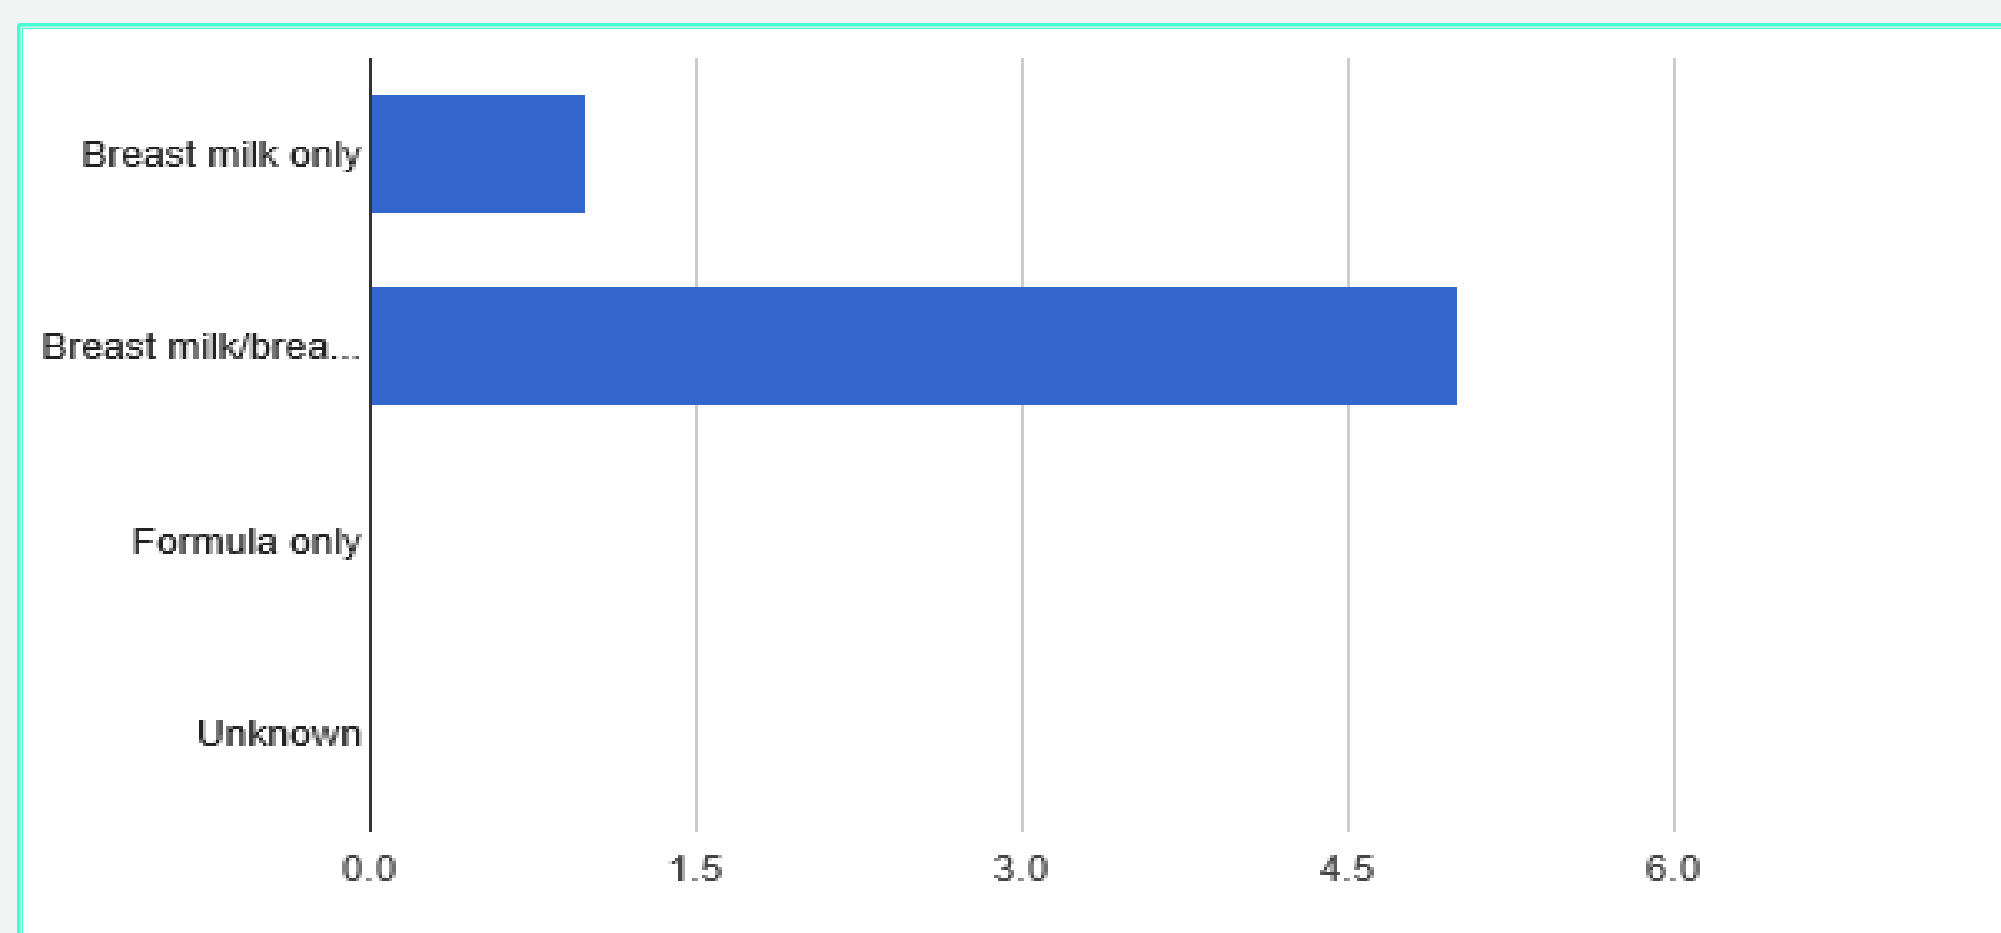

**Estera Alexa, RN**  
OB Nurse Champion

**Dr. Velamati, MD**  
Neo Medical Champion

**Audre Pocius, RN**  
Nursing Director

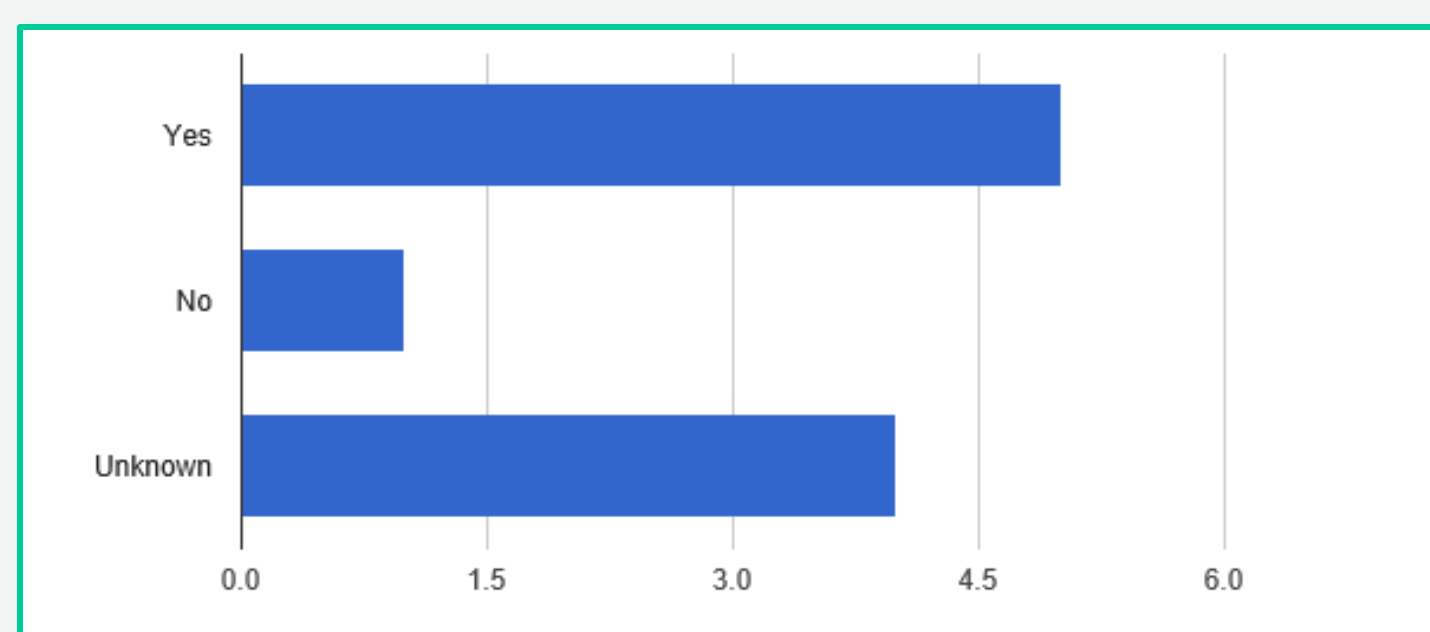

## 3. MNO-Neo Data

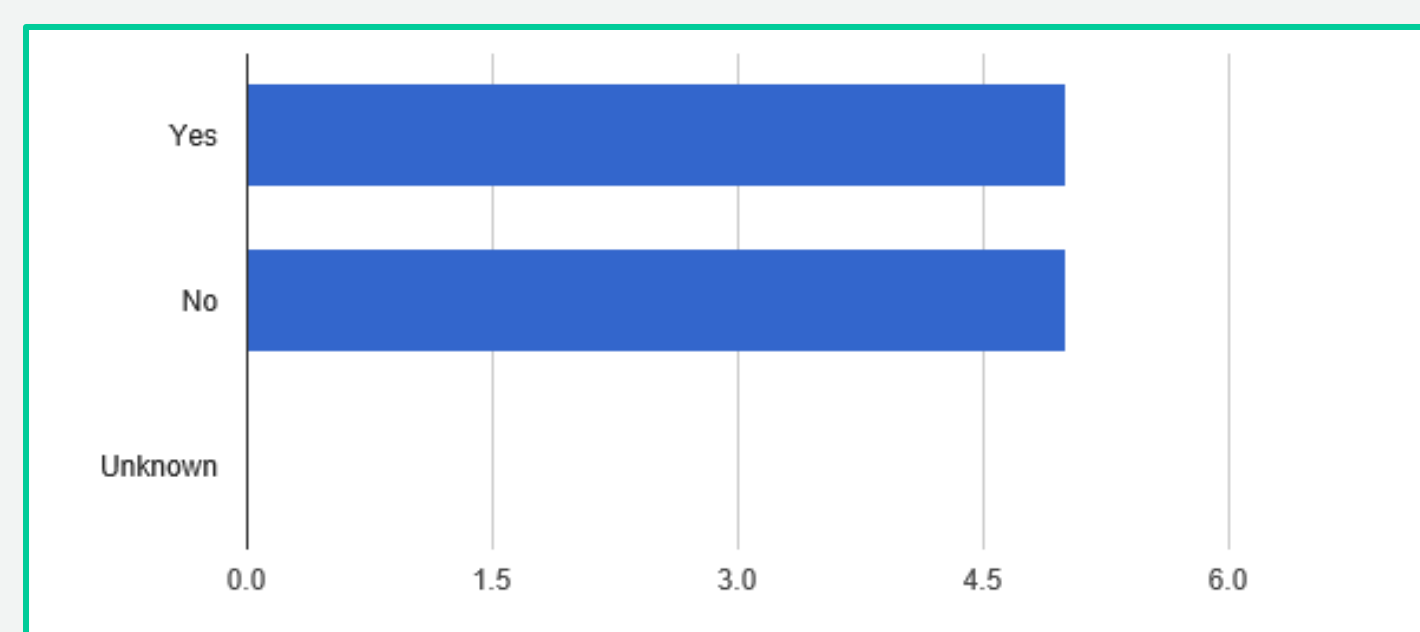

**Breastfeeding**

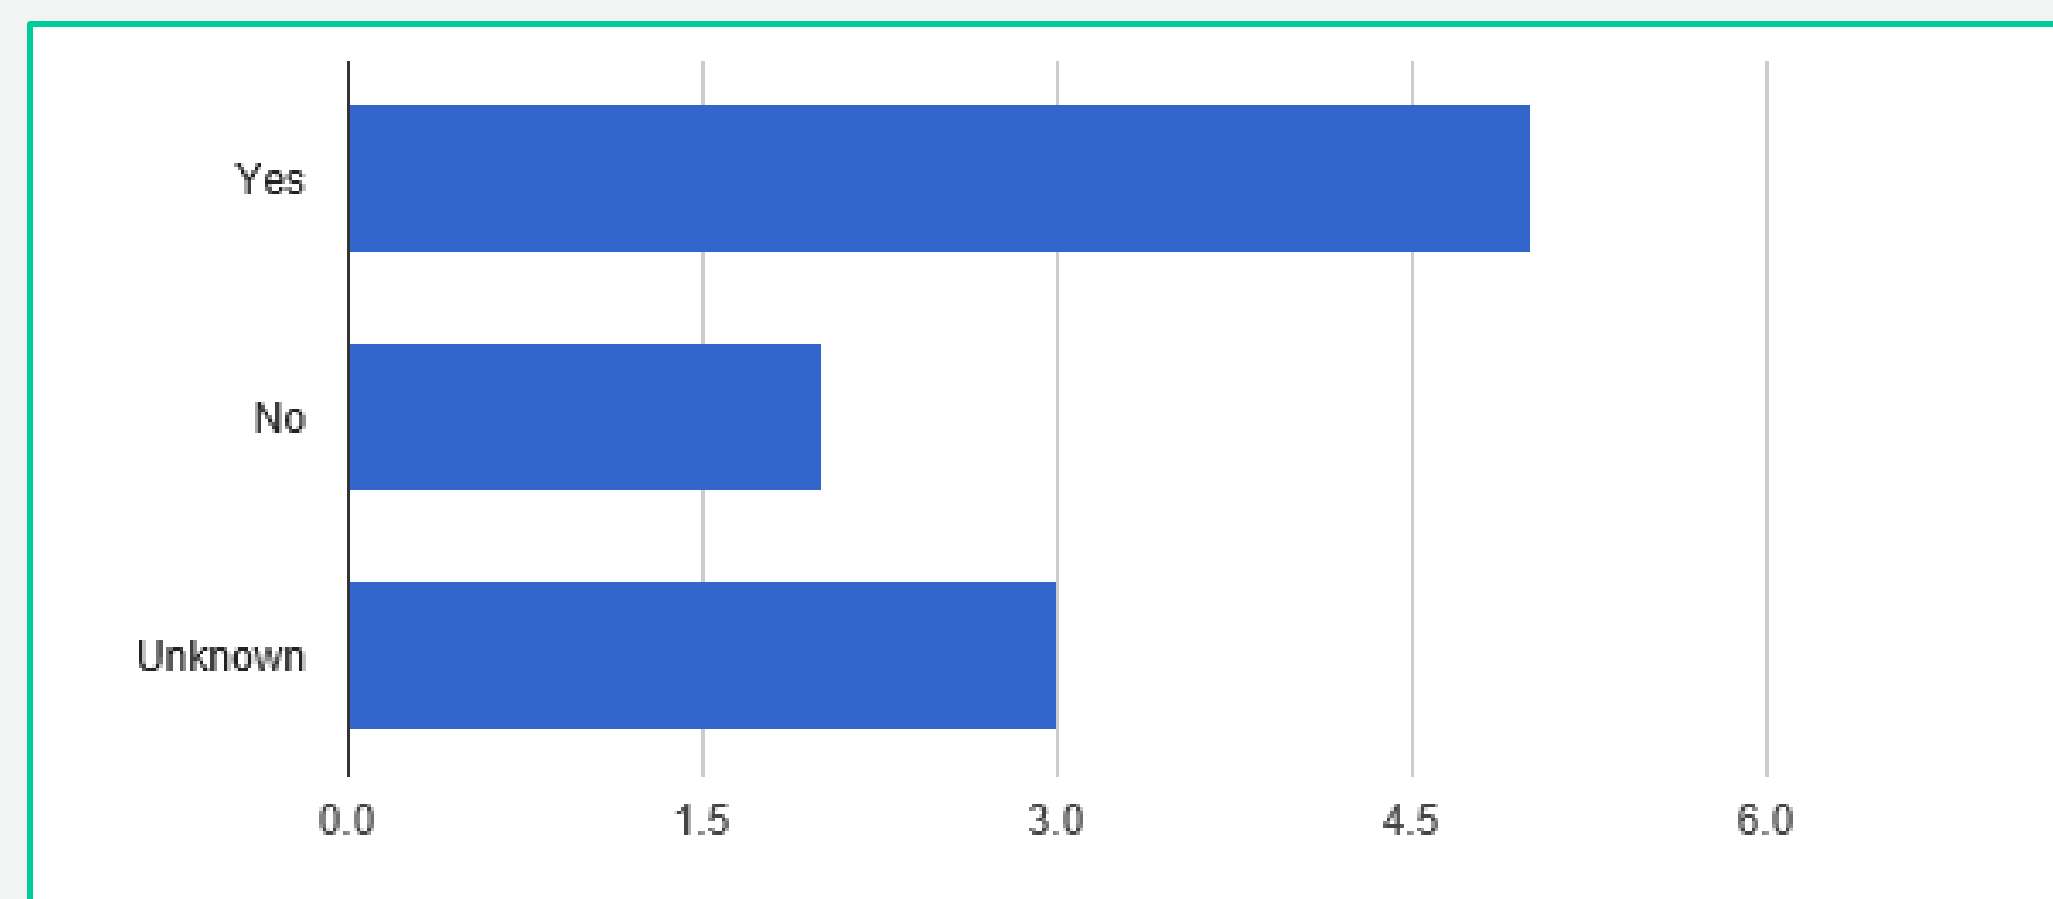

**Pharmacologic Treatment**

**Non-pharmacologic Treatment**

**Coordinated Discharge Plans**

## 4. MNO-Neo Progress

### NAS Assessment Tools

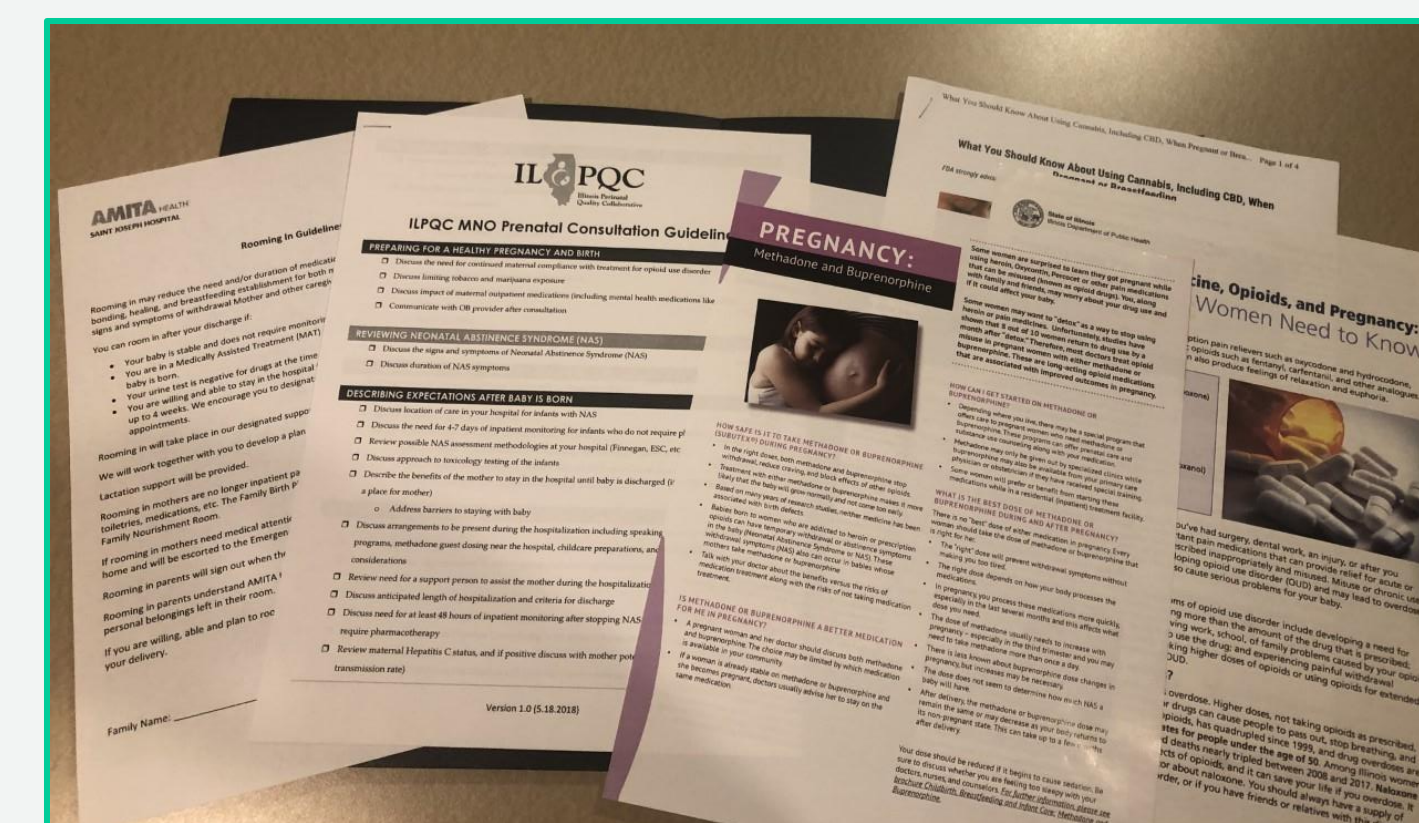

Our unit transitioned from the Finnegan scoring tool to Eat, Sleep, Console (ESC) in January 2020. The ESC tool was built into our electronic medical record. Nurses received education through email and in-services. A NICU MNO resource binder was created.

Mothers and families are encouraged to take an active role in their infant's care and are educated on non-pharmacologic techniques. Our unit encourages rooming-in and we remodeled a postpartum room with new paint, wall art, and furniture to enhance comfort and make the room feel more like "home". Plan of care is coordinated prior to admission.

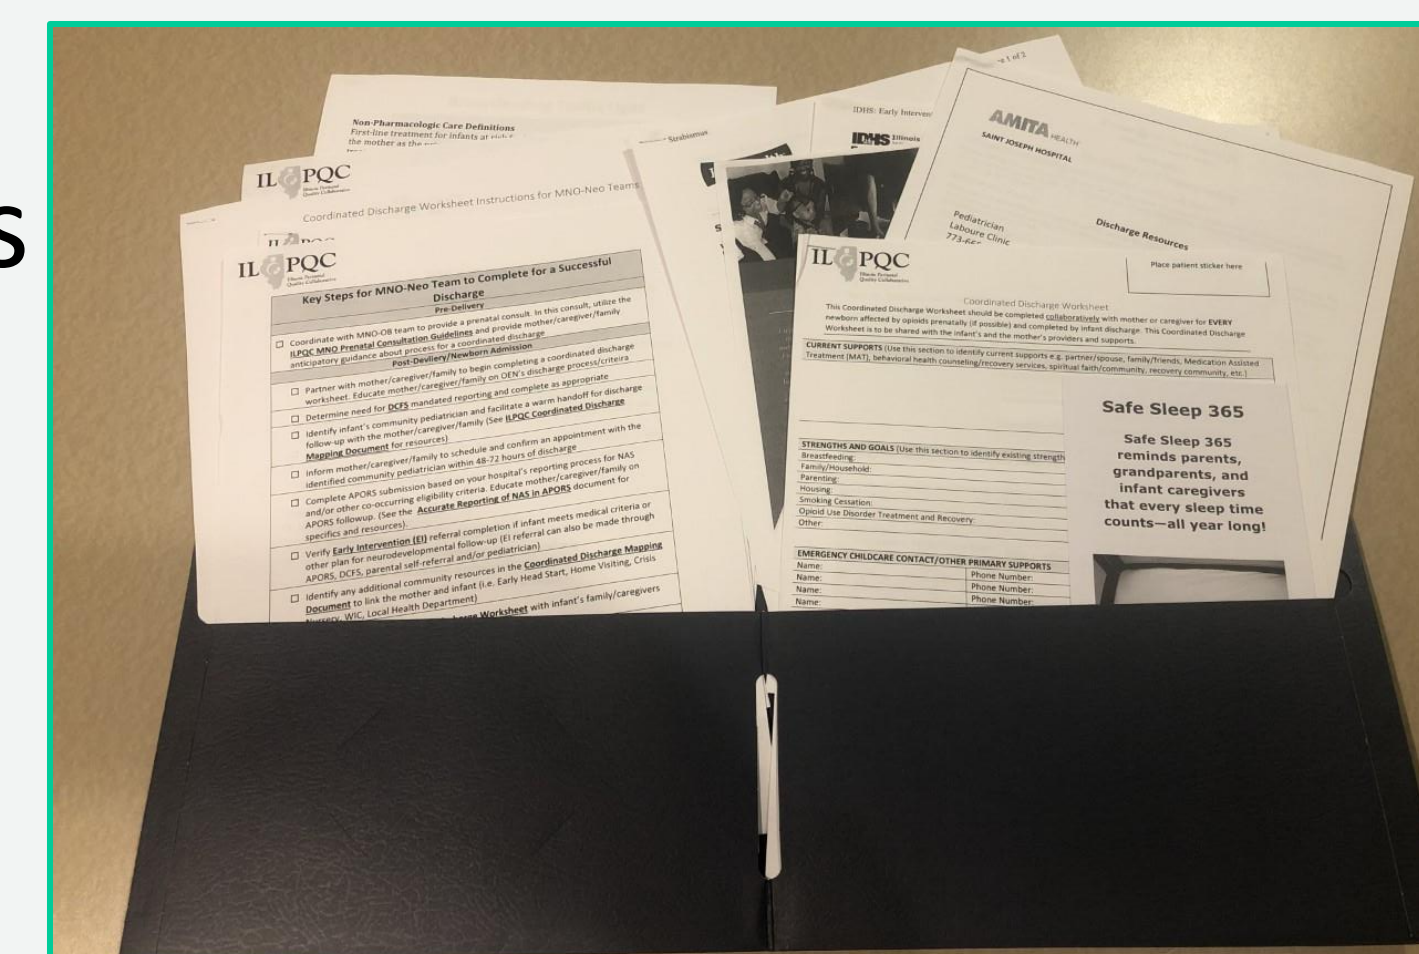

### MNO-Neo Folders

- What to Expect after Delivery
- NAS Education
- Rooming-in Guidelines

### Prenatal Folder

### Newborn/Safe Discharge Folder

- Non-pharmacologic Techniques
- Breastfeeding Education
- Discharge Resources

### Review of all NAS Cases

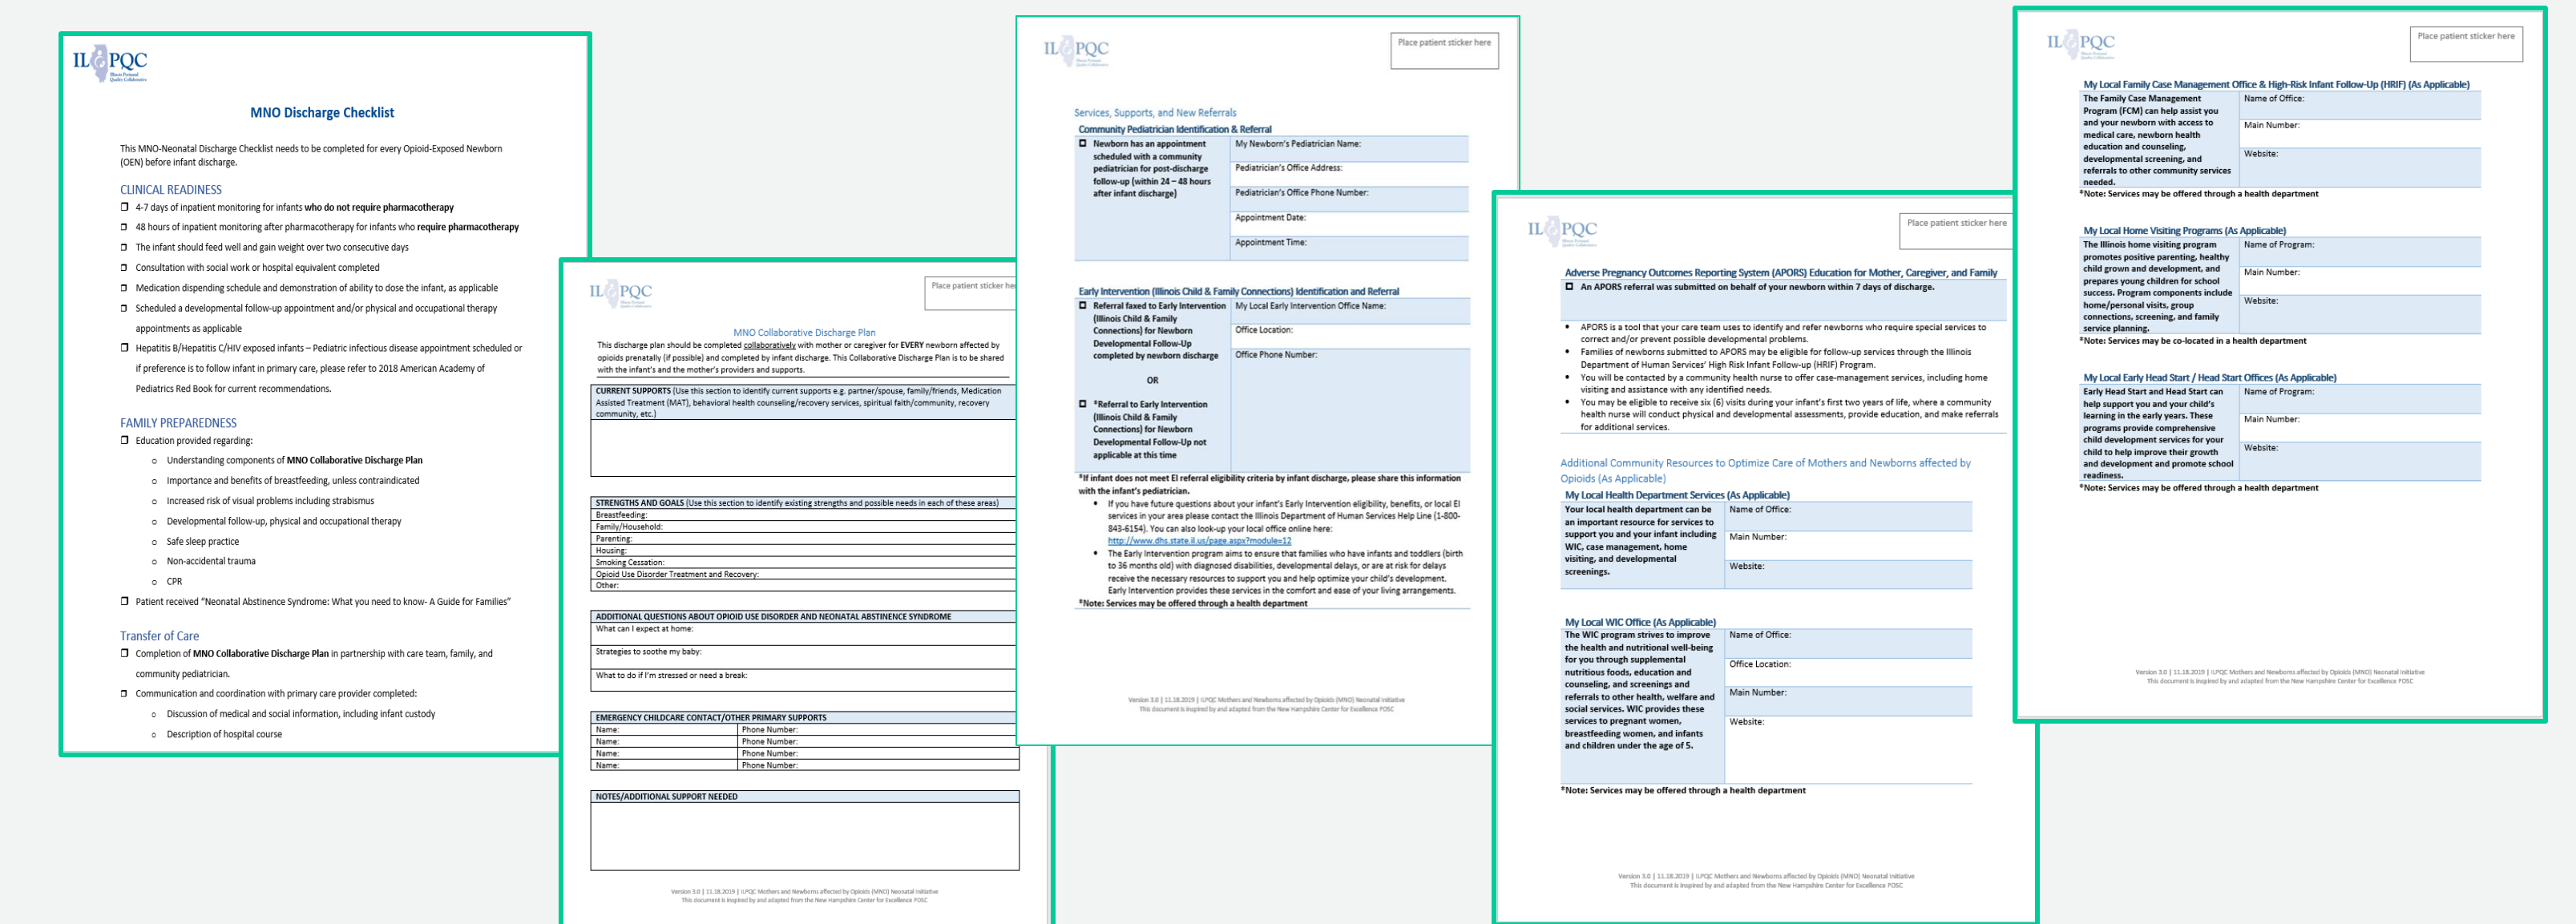

Cases are reviewed by the Neo Team Lead and discussed in our OB/NICU quality committee meeting. In 2020, we have had only one patient that met the MNO criteria. This patient provided very positive feedback of the process and the rooming-in experience. This was communicated to staff along with a summary of the care the mother and infant received.

## 5. Coordinated Discharge

### Discharge Process

- Team Lead and bedside RN review folder with mother after delivery
- Social work consult as needed
- Follow-up appointments coordinated
  - Referral to SJH-C NICU developmental follow-up clinic as appropriate

### ILPQC Discharge Material Utilized

## 6. BASIC

### BASIC Team

**Dr. Velamati, MD**  
Neo Medical Champion  
**Audre Pocius, RN**  
Nursing Director  
**Michelle Djonlich, RN**  
**Olivera Alilovic, RN**  
**Taylor Schwebke**  
Pharmacy

### BASIC Team Plan

- Team established
  - Roles to be identified
- Roster submitted for wave 1
- Evaluation process scheduled to begin in June

Use this space for overflow and additional information your team would like to share.

Postpartum room converted to  
promote comfort for mothers that  
are rooming-in

- Room painted a soothing shade of mauve
- Wall art updated
- Room equipped with refrigerator, table, and rocking chair
