Education Campaign

The ILPQC MNO Power Point was presented to all OB clinic staff, their providers, ED staff, and residents. L&D and M/B staff received training through a self-study packet and information presented at staff meetings. There was a Grand Rounds presented by Dr. Ouyang in February. In March, Delisha Harris, who has a personal history of substance use, presented information about stigma and bias.

5. IPLARC/IPAC or MNO Overflow

Structure Measures in Place cont:

9. 100% of nurses educated on OUD care protocols, screening/SBIRT, stigma reduction, process flow for linkage to MAT services, importance of mother's role in NAS newborn care, and optimal care for pregnant and postpartum women with OUD.
