IPAC
Sustainability Round Robin

July 19th, 2020
12:00pm-1:00PM
Introductions

- Please enter for yourself and all those in the room with you viewing the webinar into the chat box your:
  - Name
  - Role
  - Institution
- If you are only on the phone line, please be sure to let us know so we can note your attendance
Overview

• Welcome/introductions
• IPAC updates and data review
• Round Robin
• IPAC Toolkit Feedback
• Webinar To-Dos & take-away(s)
Improving Postpartum Access to Care (IPAC)

SUSTAINABILITY PLANNING EXAMPLE
IPAC Overview

Key Strategies

- Create and Utilize outpatient provider packet & provide billing/coding strategies for OB providers
- Implement process flow for universal scheduling and patient education
- Provider/staff Education
- Standardize system for key patient education materials

Systems Change

- Institutional buy-in
- Test and implement key strategies
- Engage diverse group of stakeholders on QI team
- GO LIVE with IPAC to facilitate universal scheduling

Culture Change

- Ensure all patients receive key education materials
- Monitor scheduling
- New hire / ongoing provider/staff education including outpatient site staff
We’re LIVE – What’s Next?

• **Monitor scheduling and education compliance**
  – How do we work with outpatient sites to ensure all patients receive a 2 week maternal health safety check?
    • **Review REDCap Data** to monitor progress, identify gaps, and follow up with outpatient sites
    • **Share OB provider / outpatient packet** with all OB providers/outpatient sites

• **Continue with provider and nurse education**
  – What about new hires?
    • Implement **new hire** IPAC education for providers / staff including **outpatient staff**
  – What about ongoing education?
    • Determine with QI team, your education tool(s) will you use for ongoing education for providers and nurses (ACOG CO# 737, Protocols, Grand Rounds, etc.)
Sustaining our improvement efforts

• Sustainability is an active critical phase or your outstanding improvement effort, implement your sustainability plan for:
  – Compliance monitoring
  – New hire/continuing education plan

• ILPQC sustainability support continues through December 2020:
  – Monthly data monitoring and reporting in REDCap
  – Every other month team webinars
  – QI and sustainability plan support

• Transition to support at the network level in January 2021 to check in on sustainability plan implementation and ongoing IPAC success
Improving Postpartum Access to Care (IPAC)

IPAC- UPDATES AND DATA REVIEW
## Overall Initiative Aim
Within 11 months of initiative start, ≥80% of participating hospitals will implement universal early postpartum visits (within 2 weeks) and be able to facilitate scheduling prior to hospital discharge.

## Structure Measures
- **IPAC protocol/process flow** in place for facilitating scheduling of early postpartum visits with affiliated outpatient care sites and OB providers prior to discharge.
- Communicate recommendation/strategy for early postpartum visit and obtain buy-in with OB providers/outpatient care sites (ie, share ILPQC OB provider/outpatient care site packet).

## Implement standard postpartum education prior to discharge after delivery regarding:
- **a)** benefits of early postpartum care
- **b)** postpartum early warning signs and how to seek care
- **c)** benefits of pregnancy spacing and options for (outpatient) family planning

## Process Measures
- Educate all providers and staff on optimizing early postpartum care including:
  - **a)** maternal safety risks in the postpartum period
  - **b)** benefits of early postpartum care/maternal health safety check
  - **c)** protocol for facilitating scheduling early postpartum visit prior to discharge
  - **d)** documentation and billing for early postpartum visit
  - **e)** components of early postpartum visits/maternal health safety check

## Outcome Measure
- Increase % of women with documentation of an early postpartum visit/maternal health safety check encounter scheduled within the first 2 weeks of delivery
- Increase % of patients who receive standardized pp patient education prior to discharge
Utilize provider outpatient packet to engage OB providers and outpatient care sites to help plan for early pp visit scheduling, obtain buy-in from providers, and share options for billing and coding.

Implement process flow to facilitate universal scheduling and patient education, prior to hospital discharge, of early pp visits / maternal health safety check within 2 wk.

Implement provider and nurse education on risks of the postpartum period, benefits of early pp visit, and key components of maternal health safety check.

Standardize system to provide patient education prior to hospital discharge on the benefits of early pp visit, early pp warning signs and how to seek care (ie AWHONN resource), and benefits of healthy pregnancy spacing and options for (outpatient) family planning.
Don’t forget to submit your team’s monthly data!

Improving Postpartum Access to Care (IPAC)

ROUND ROBIN
Round Robin - Each team to share:

- Share any **changes** your team has noticed in your IPAC work in light of COVID-19
- Share how your team is doing with IPAC sustainability
- What does your team plan to do if you notice a **compliance drop in your sustainability data**?

1. AMITA Alexius Brothers Women’s & Children’s Hospital – Hoffman Estates
2. AMITA Alexian Brothers Hospital – Elk Grove Village
3. AMITA Resurrection Medical Center - Chicago
4. Loyola University Medical Center - Maywood
5. Franciscan Health Olympia Fields - Olympia Fields
6. SSM St. Mary’s – Centralia
7. St. Joseph Hospital – Chicago
8. Morris Hospital & Healthcare Centers – Morris
9. St. Margaret’s Health - Spring Valley
10. UI Health – Chicago
11. Illinois Valley Community Hospital-Peru
12. Memorial Hospital- Carbondale
13. KSB Hospital- Dixon, IL
14. AMITA Adventist GlenOaks Hospital, Glendale Heights, IL
Toolkit Feedback

1. Introduction
2. Initiative Resources
3. Communicating and **obtaining buy-in** regarding need for early postpartum visit
4. **Tools for implementing universal early postpartum** visits scheduled prior to hospital discharge
5. **Tools for outpatient providers** to optimize early pp visit/maternal health safety check
6. **Billing/coding strategies** for reimbursement of IPAC
7. Resources for **provider/nurse education**
8. Resources for **patient education** regarding IPAC

What tools did your team find the most helpful?
What barriers did you face at the start on the initiative?
Looking back, is there anything you wished you had?
Improving Postpartum Access to Care (IPAC)

NEXT STEPS
IPAC Calls

• THIRD MONDAY OF THE MONTH

IPAC
12-1pm

To Do List

- Submit **IPAC data** for all months- (go back and enter)

- Ask providers/staff for 2 week Maternal Health Safety Check **Patient Success Stories** to be tracked and shared with hospital administration and other providers (issues identified, linkage to care success, patient satisfaction with early visit etc)

- Share any **toolkit feedback** with ILPQC

- Continue sustainability plan implementation:
  - compliance monitoring (scheduling and pt education)
  - new hire and continuing education
Promoting Vaginal Birth (PVB)

What will we focus on?

- Optimizing Labor Management and support
- Protocols and Guidelines for Induction and Labor Decision Making
- Provider, Nurse, Patient Education to support clinical culture change
Promoting Vaginal Birth Toolkit Outline

• Introduction

1. Initiative Resources *10 Steps to Getting Started with PVB*
2. Promoting Vaginal Birth Slide Set
3. National Guidance: AIM Bundle
4. National Guidance: ACOG Committee Opinions/Practice Advisories and AWOHNN Statements

5. Creating Clinical Culture Change
   1. Building a Strong QI Team
   2. Provider/Nurse Education
   3. Patient Education
   4. Clinical Care team Debrief/Huddles and SHARED decision making

6. Labor Management
   1. Algorithms for stages of labor
   2. Labor management support and response to labor challenges

7. Standardization of Policy, Protocols, & Algorithms
   1. Inductions
   2. Labor Challenges/Dystocia
   3. Fetal Intolerance

Toolkit Binders being shipped soon!

Birth Equity Initiative Update

- Plan to convene clinical leads to discuss preliminary aims, drivers, and measures for Birth Equity Initiative in September.
- Initial ideas in development for discussion include:
  - Addressing **social determinants** of health during prenatal, delivery, and postpartum care to improve birth equity (e.g. Mapping resources, screening/referral tool)
  - Utilize race/ethnicity medical record and quality **data** to improve birth equity (e.g. accurate race/ethnicity data collection, health measure dashboards, review of patient satisfaction data)
  - Engage patients, birth partners, and communities to improve birth equity (e.g. patient advisor on QI team, engage doulas in care team, patient reported experience)
  - Engage and educate providers and nurses to improve birth equity (implicit bias training, education on listening to patients, hiring strategies)
- Wave 1 testing of data form in early 2021, launch in May 2021.
ILPQC VIRTUAL Annual Conference 2020 – October 29, 2020

SAVE THE DATE!
