Join us to share strategies and lessons learned from perinatal quality improvement efforts across the US. We will hear updates on current Illinois perinatal quality initiatives, including Golden Hour and Birth Certificates, and launch the new state-wide Maternal Hypertension Initiative. We will discuss hot topics in both obstetric and neonatal quality including: efforts to reduce maternal morbidity and mortality, patient and family engagement, building sustainable quality improvement, California Pre-eclampsia Toolkit, antenatal steroids, stabilization of the high-risk newborn at birth (Golden Hour), and next steps for engaging with ILPQC.
