# QUALITY IMPROVEMENT RECOGNITION AWARDS

ILPQC GOLDEN HOUR INITIATIVE

## GOLD

- ✓ Data submitted for January – October 2017
- +
- ✓ 4 target process measures at goal\*

## SILVER

- ✓ Data submitted for January – October 2017
- +
- ✓ 3 target process measures at goal\*

## BRONZE

- ✓ Data submitted for January – October 2017
- +
- ✓ 2 target process measures at goal\*

### \*4 Target Process Measures:

- Delayed cord clamping rate at 80% or higher
- Temperature in target range at NICU admission rate at 90% or higher
- Communications measures (brief, checklist, debrief) rates at 80% or higher
- Family engagement measures (pre, during, and NICU admit) rates at 90% or higher

**\*Process measures can be met in September OR October 2017 to qualify for the awards.**

# Updates from the ILPQC Neonatal Advisory Group

- Outreach to teams missing data as of May 2017
- Look for email from [info@ilpqc.org](mailto:info@ilpqc.org) to set up a time to discuss and troubleshoot
- Planning for sustainability monitoring and ILPQC Annual Conference Speakers

# Golden Hour 2017

- All team communications measures (80% or greater)
  - Pre-brief
  - Checklist
  - Debrief
- All family engagement measures (90% or greater)
  - Pre-resuscitation
  - During resuscitation
  - At NICU admission
- Temperature of infants upon NICU admission at 36.5-37.5°C (90% or greater)
- Delayed cord clamping (80% or greater)

# Neonatal Golden Hour: Communication Practices

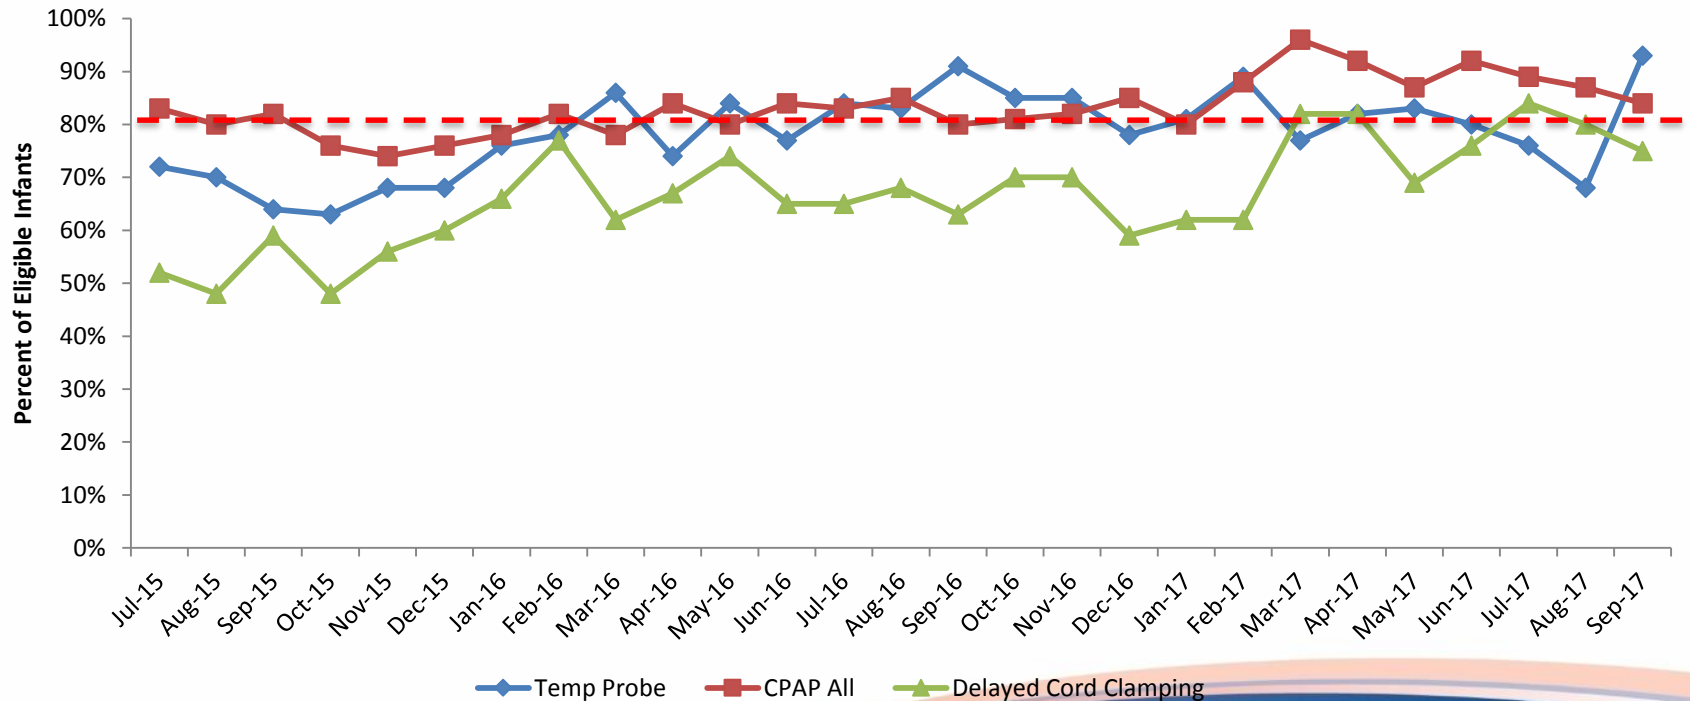

**ILPQC: Golden Hour Initiative**  
**Communication Practices: Percent of Deliveries Utilizing Delivery Room Checklist, Prebrief, & Debrief**  
**All Hospitals, 2015-2017**

# Neonatal Golden Hour: Delivery Room Practices- DCC

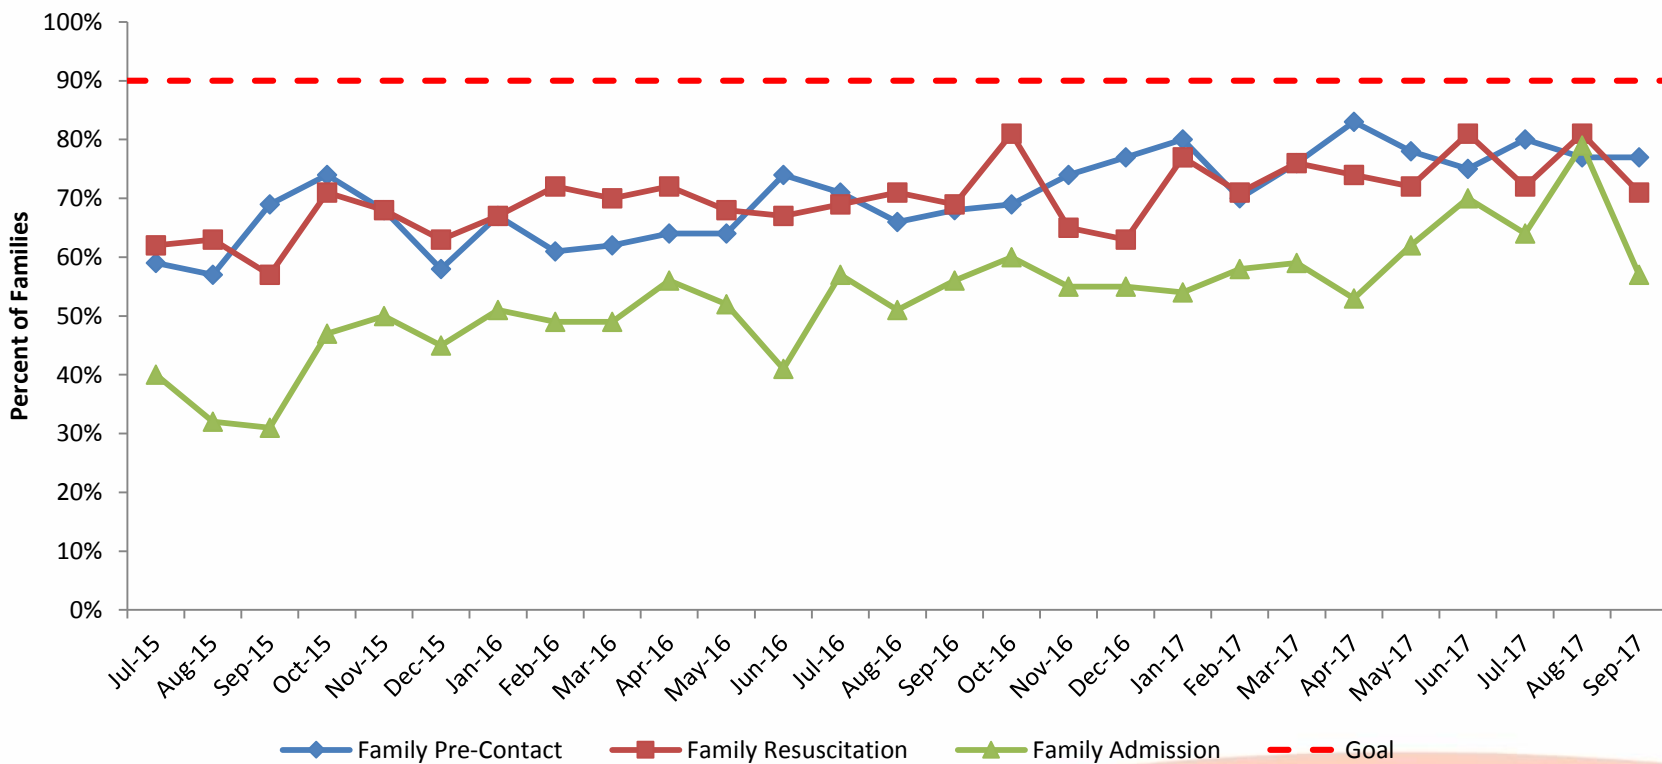

**ILPQC: Golden Hour Initiative**  
**Delivery Room Practices: Percent of Eligible Infants with Temp Probe**  
**Initiated within 10 minutes, Initially Stabilized with CPAP Trial, &**  
**Delayed Cord Clamping 30-60 Seconds**  
**All Hospitals, 2015-2017**

# Neonatal Golden Hour: Family Engagement

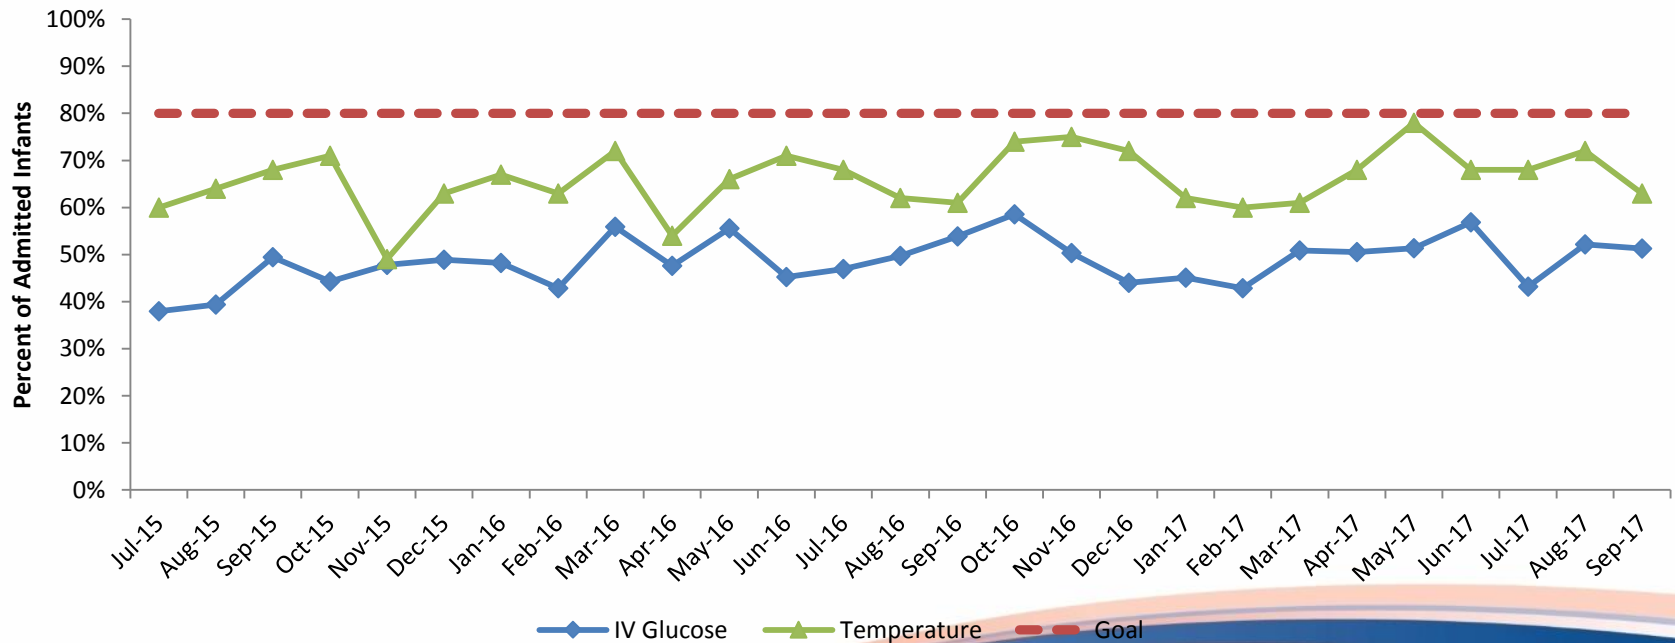

## ILPQC: Golden Hour Initiative Family Practices: Percent of Families Receiving Pre-Contact, Present During Admission, and Present During Resuscitation All Hospitals, 2015-2017

# Neonatal Golden Hour: Admission Practices – Temperature and IV Glucose

## ILPQC: Golden Hour Initiative Admission Practices: Percent of Admitted Infants who are Between 36.5-37.5°C on Admission (<32 weeks) & who Received IV Glucose within 1 Hour of NICU/Specialty Care Nursery Admission All Hospitals, 2015 - 2017

# Sustainability

- What metrics do we want to monitor during sustainability period?
- What are our goals for monitoring?
- 80% of deliveries will use a checklist which includes a pre-briefing with the OB and nursery team and a post-resuscitation debriefing for high-risk deliveries
- 90% of resuscitation team leaders will have introduced themselves to the mother and/ or significant other prior to delivery
- 80% of eligible infants will receive delayed cord clamping
- 80% of high-risk newborns and newborns requiring resuscitation will have a pulse oximetry signal obtained by two minutes after birth

# Sustainability

- 70% of eligible neonates will be initially stabilized with non--invasive respiratory support in the delivery room
- 80% of eligible neonates will receive pulmonary surfactant within 15 minutes of intubation in the delivery room
- 90% of fathers/significant others will have experienced partnership the baby's bedside in the delivery room, transport to NICU/ SCN, and during the admission process
- 90% of infants less than 32 weeks gestation or less than 1500 grams birth weight, will have a temperature between 36.5--37.5°C upon admission to the NICU
- 80% of all infants less than 32 weeks gestation or less than 1500 grams birth weight will have intravenous access, intravenous fluids, and antibiotics infusing within one hour of admission to the NICU

# Sustainability Survey

- We will send out survey to Golden Hour teams before annual conference
- Possible topics for inclusion
  - Golden Hour metrics for compliance monitoring
  - Challenges and successes
  - Plans for MNO
  - Contact information

# Sustainability

- Routine
- Measurement
- Surveillance
- Communication
- Celebration

# Sustainability Scenario #1

- It is June 2018 and you finally got around to reviewing the DCC data. Whoops, you were at 80% and for the last two months you have dropped to 60%.

# Sustainability Scenario #1

- It is January 2018, you are the team leader and excited to discuss Golden Hour sustainability with your team. When you mention Golden Hour sustainability everyone groans and says they can't wait to move onto MNO.

# Sustainability Scenario #1

- It is March 2018, you are in the delivery room for the delivery of a 26 week baby. The respiratory therapist informs you that she has the ETT prepared because they have been intubating all babies less than 27 weeks over the last two months.

# Golden Hour Initiative Next Steps

- Submit current and past due data as soon as possible
- Reach out to ILPQC with any QI/data support questions!
- Email [info@ilpqc.org](mailto:info@ilpqc.org) with any questions!

## Next Steps

- Attend GH Team calls on November 21 from 2-3pm
- Complete GH data entry through October by November 15, 2017
- Look for GH survey sent out before November Neonatal Advisory Workgroup Call – complete 1 per team
- Attend annual meeting December 19th
