Plan Do				PDSA WORKSHEET	
	Team Name: Hosp			Date of test: June 1, 2016	Test Completion Date: June 3, 2016
Act Study	Overall team/project on pre-existing hyp			e the rate of severe morbidities in wo	omen with preeclampsia, eclampsia, or preeclampsia superimpose
	What is the objective	ve of the test? To	improve access to IV	V labetalol on the L&D unit.	
PLAN:				DO: Test the changes.	
Briefly describe the test:				Was the cycle carried out as planned? X Yes No	
Test use of the severe hypertension medication box containing: magnesium sulfate (with tubing, syringes, and needles), labetalol, hydralazine, and calcium gluconate.					
synnges, and needles), labetaloi, nydraiazi	rie, and calcium giu	conale.		Record data and observations.	
How will you know that the change is an improvement? Feedback from providers and staff on experience with box after use on one patient – does it				Nurse Joan used the box with a patient on June 3. Felt it greatly increased her access to the medications and patient was treated within 45 minutes of confirmed BP. Feedback that box was difficult to open. Questions about how to ensure new box is in place for next case were raised.	
				What did you observe that was not part of our plan? We didn't expect packaging to be an issue.	
What driver does the change impact?				we didn't expect packaging to b	e an issue.

Plan, Do, Study, Act (PDSA) Monthly Summary Worksheet

Please briefly describe the Plan, Do, Study, Act (PDSA) cycle(s) you completed this month in the following sections:

a. Plan: What was your hospital's aim for improvement this month? What changes did you test this month? How did you implement the test of change (Who, What, When, Where, How)?

b. Do: When did you implement your first test of change? What barriers did you experience and how did you overcome them?

c. Study: What did you learn? Is it what you expected?

d. Act: What changes do you plan to test next month? How will you implement your next test of change?

The content of this survey is based on the Ohio Perinatal Quality Collaborative's "MPR 39 Week Dissemination and Spread Survey" with adaptations based on Illinois Hospital Association's "Action Plan Worksheet."
