

Welcome to

TEAMBIRTH

&

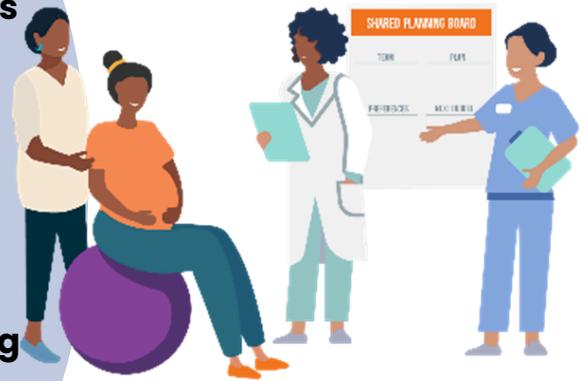

**I'M
S P E A K I N G**

WHAT IS TEAMBIRTH?

ILPQC-quality improvement initiative that uses shared decision-making model to promote effective communication, collaboration, and clinical care during childbirth

- improves patient satisfaction with OB care
- improves OB staff satisfaction by improving communication and teamwork.
- **22 hospitals across Illinois are implementing TeamBirth with ILPQC and Ariadne Labs support between 2025-2027.**

Meet our TeamBirth/I'M SPEAKING **Evaluation** Team

I'M SPEAKING: Improving Safety, Patient Experience, and Equity through Shared Decision-Making Huddles in Labor

I'M SPEAKING is partnering with ILPQC to evaluate if TeamBirth will:

- improve patient experiences
- improve the culture on labor and delivery floors
- reduce Cesarean births
- reduce racial disparities in birth experience and outcomes
- and study best practices for TeamBirth implementation - what works best!

Evaluation coordinators will visit your hospital to help support your hospital's Patient Reported Experience Measure (PREM) survey collection with postpartum patients before discharge. They will help to collect baseline PREM surveys before your hospital launches TeamBirth. After your hospital launches TeamBirth, they will be back to help collect PREM surveys, so that your hospital can track progress and sustainability.

Your hospital will continue to invite all postpartum patients to complete PREM surveys. When the I'M SPEAKING team visits, they will invite postpartum patients to take the PREM survey if they are:
